Letter of Recommendation

To whom it may concern:

The Bollore Transport and Logistics Group is an industry leader in logistics solutions throughout the continent. For our Uganda and Congo operations we have had the pleasure to use the Marine Transport Services of Semliki Rift Trading Company over the years. Since my assignment as Operations Manager in Uganda we have had ongoing operations which have consisted of either delivering containers to Bunia (DRC) from Ntoroko port (UG) utilizing their cranes, vessels and trucks or river crossings of our own trucks using their barges.

To this date, we continue to rely on both their MV Rolling Pride and MV Alexia RO/RO barges every week so that our trucks with reefer containers make it in time to Bunia for our customer's critical foodstuffs, which need to arrive fresh/frozen in the remotest places in Eastern Congo. We know we can trust and rely on Semliki Rift to deliver our trucks swiftly from Ntoroko to Kasenyi and it's often the case that our early loadings in Entebbe and Kampala arrive the very same evening in Bunia. With the bad road conditions in most of Eastern Congo, it gives us peace of mind to count on the lake corridor that they have established. I know of no other marine transporter in the lake and am confident that whoever chooses their services will be satisfied.

I therefore recommend Semliki Rift Trading Company to any business that requires an efficient transporter on Lake Albert.

Sincerely yours

  
Anton Small  
Operations Manager  
Bollore Transport and Logistics  
Kampala Uganda
