**Letter of Recommendation**

Dear Sir,

Tesla Exploration has been the pioneering and leading Seismic Company in Lake Albert and Lake Edward, conducting both land and marine seismic surveys on behalf of all major Ugandan and Congolese Oil & Gas Companies. Since 2009 Tesla has been using the services of Semliki Rift Trading Company, namely support boats for seismic operations, barges for crossing cargo in Lake Albert, speed boats, yard, port facilities and crane operations. Tesla is currently planning a river crossing at Semliki to avoid mobilizing assets through the harsh roads in Eastern Congo.

Since 2009, Tesla has benefited from Semliki Rift's services and their staff have always conducted themselves professionally. Their vessels have helped Tesla to achieve success in all of the surveys, including safely accessing remote places in DRC which were not reachable by road at the time. Based on this, Tesla would like to thank Semliki Rift and recommend their services to any prospective customers in Lake Albert.

With kind regards,

Marios Andreou  
Country Manager  
Tesla Exploration Intl Ltd
